WBEN Buffalo Business Report - Wednesday

WBEN Newsroom - Wednesday, October 12, 2005 06:05 AM

New York, NY (WBEN) - Thirty-six cents. That was the trading price for a share of Delphi stock when the New York Stock Exchange took it off the "Big Board" yesterday. Delphi Chairman Robert "Steve" Miller will hold a news conference at 2 o'clock to discuss the future of the company. WBEN will air those remarks live.

Buffalo, NY (WBEN) - Americans and Canadians have different views on cross border traffic, but not on security along their border. Business First, reporting on a survey conducted by UB and SES Research, indicates people on both sides of the border agree their respective countries should work more closely on national and border security, as well as anti-terror measures. However, Canadians are more suspicious of American goods and people headed to their country, than Americans are of Canadian goods and people coming here.

Buffalo, NY (WBEN) - America's Choice International of Buffalo has unveiled "Map Choice." This tool allows home buyers to search for available homes using an interactive map and GPS technology.

Cheektowaga, NY (WBEN) - The National Credit Union Administration has granted a "Select Community Charter" to the Westinghouse Federal Credit Union.
